Concept Q s7.html

(Case 1) $Q = \Delta U + W$ $W > 0$ since piston is raised
                                   (volume increases)
Case 2 $Q = \Delta U + w = \Delta U$

                                   AND: ΔU identical for
                                        cases 1 & 2
